Problem

CLIMATE CHANGE

The change in global or regional climate patterns attributed largely to the increased levels of atmospheric carbon dioxide produced by the use of fossil fuels. The areas of the globe that people live or grow food now may not be usable long term.

Problem

ENVIRONMENTAL SUSTAINABILITY

Megatrend Mashup

Problem

ENVIRONMENTAL SUSTAINABILITY

The landscape and resources that sustain our lives and lifestyle are limited and not renewable.

Problem

LOW DEMOCRATIC ENGAGEMENT

Megatrend
Mashup

Problem

LOW DEMOCRATIC ENGAGEMENT

The democratic fundaments of our societal power structure are at risk because more and more of our people do not prioritise participating in them.

Problem

GAP BETWEEN RICH AND POOR

Megatrend
Mashup

Problem

GAP BETWEEN RICH AND POOR

The rich get rich, the poor get poor. Revolution ensues.

Megatrend

Problem

SOCIAL INEQUALITY

Megatrend

Mashup

Problem

SOCIAL INEQUALITY

We don't get the best out of our society because talented people are stopped, suppressed and disadvantaged solely because of their gender, sexuality, race, religion or other factors.

Problem

SAFETY

Megatrend
Mashup

Problem

SAFETY

Human safety is a constant problem in today's society. Threats to life, injury and property abound.

Problem

TERRORISM

Megatrend Mashup

Problem

TERRORISM

People are so marginalised that they turn to violence against society to find their voice.

Problem

CHILD POVERTY

Megatrend Mashup

Problem

CHILD POVERTY

Many children are not given the resources and environment they need to reach their potential in being contributing members of society.

Megatrend Mashup

Problem

MENTAL HEALTH

Megatrend

Mashup

Problem

MENTAL HEALTH

People's mental health is as fragile as their physical bodies, but resources and understanding of this area lags, to the detriment of society as a whole. Suicide, violence, dependency, antisocial behaviour, lack of participation.

Megatrend Mashup

Problem

AGING POPULATION

Megatrend Mashup

Problem

AGING POPULATION

We have a much higher proportion of the population who will not be in the workforce, and therefore a lower proportion directly contributing to the economy. Resources need to be expended to care for those people and ensure their well being. Some of them are wealthy, some are not.

Problem

FOOD AND WATER SUPPLY

Megatrend
Mashup

Problem

FOOD AND WATER SUPPLY

The basics of what we need to survive are subject to threatening supply, environmental, logistical and quality pressures.

Megatrend

Problem

POLITICAL INSTABILITY

Megatrend
Mashup

Problem

POLITICAL INSTABILITY

Political instability leads to a tremendous international problem of how to provide for untold numbers of refugees fleeing instability. The world economy is subject to damage from this as well.

Problem

UNCONSCIOUS BIAS

Megatrend Mashup

Problem

UNCONSCIOUS BIAS

In our own lives we live and judge according to biases that we are not consciously aware of, that do not help us towards a fair and equal society.

Megatrend
Mashup

Problem

TRANSPORT CAPACITY

Megatrend
Mashup

Problem

TRANSPORT CAPACITY

Our lives and economy are based on physical travel, that is difficult, expensive and environmentally damaging at present. With more people comes more pressure.

Megatrend

Problem

OBSOLETE SKILLS AND JOBS

Megatrend Mashup

Problem

OBSOLETE SKILLS AND JOBS

As time moves on, technology and new ways of working mean that many people's skills become obsolete and the jobs they have no longer exist. Those people need to be taken care of and helped to adapt.

Problem

HEALTH CARE FOR ALL

Health care treatment technology continues to evolve but the basic model of healthcare is the same as it has been for a hundred years. People don't get the care they need to survive and prosper.
